

Consultant

Reward

Market rate depending on experience

Location

London with hybrid working

The role

As part of Quantum's consultancy team, you will provide advice on the design, funding, administration and communication of our clients' pension schemes.

Using your knowledge and experience you will help clients manage a variety of benefit related risks, guiding them to formulating the shape of future pension provisions and delivering innovative solutions.

You will establish a strong relationship with clients to understand their needs, attending Trustee meetings and following up on the action points identified.

You

The ideal candidate will have a knowledge of secretarial and governance framework of trust based pension schemes. You will already be working in a similar role and looking to progress. A relevant PMI qualification would be advantageous.

Quantum Advisory

Quantum Advisory is an equal opportunities employer and we offer:

- A competitive salary and benefit package
- Flexible working hours, including some remote working
- Professional qualification study support.
- Salary awards or bonuses for exam passes.
- 24 days standard annual leave with a holiday purchase/sale scheme.
- Retail discounts on high street and online shopping.
- Pension scheme with employer matching contributions up to 5% of salary.
- Annual performance bonus.
- Flexible benefits platform.
- Volunteering leave.
- Cycle to work scheme.
- Seasonal parties and social events.
